Profile

A quick learner with a broad variety of skills in the science and technology fields. A devoted supporter of the industry who has proven his value by acquiring the necessary skills and who is eager to learning new ones in the field, especially in science and technology, and who participates in professional activities throughout time, even while still a student. A diligent and innovative person with skills that are beneficial to science and technological orgaizations. Excellent team player that prioritizes achieving the predetermined goals by perseverance, professionalism, attention to detail, and an inventive mindset. In order to improve the organisation. I'm motivated to work well with everyone in the company and to execute projects that will benefit it and to put professional experience and competence to good use.
